

Industrial & E-commerce Warehousing

Our industrial constructions are built to withstand the rigors of daily operations, providing clients with spaces that facilitate productivity and growth.

Green Earth Commercial Contracting stands as an industry leader in industrial construction, tailoring solutions to the unique demands of the sector. Our expertise in heavy-duty infrastructure is evident in robust and efficient structures crafted for various warehouses. Going beyond conventional methods, we integrate cutting-edge technologies, adhere to stringent safety protocols, and optimize functionality while maintaining hallmark quality.

We're dedicated to providing comprehensive services for **e-commerce warehousing**, encompassing design review, permitting, project estimating, and construction management. Ensuring operational excellence, our approach emphasizes flexible layouts addressing evolving inventory needs and sustainable practices—a future-ready solution for the dynamic e-commerce landscape.

FEATURED

Warehousing and Distribution E-commerce Program #1

CATEGORY: General Contractor, Industrial

LOCATION: Multiple locations, FL

PROJECT COST: \$800,000 to \$1,300,000

Renovation program undertaken for Amazon Global Real Estate and completed between 2019 and 2021. The project spanned multiple locations in Fort Myers, St. Petersburg, West Palm Beach, Pensacola, and Jacksonville, Florida. With sizes ranging from 10,000 to 50,000 square feet, the industrial and storage facilities underwent comprehensive renovations, including office spaces, break rooms, warehouses, and storefronts.

What to expect

- ✓ **Expertise & efficiency** - With extensive experience, we ensure efficient project management, navigating construction processes, regulations, and industry best practices.
- ✓ **Cost & time optimization** - Partner with us for long-term cost savings through accurate estimates, favorable subcontractor negotiations, and adept project scheduling.
- ✓ **Quality & assurance** - GEC3 prioritizes quality control, adhering to industry standards, and leveraging trusted subcontractors to surpass expectations.
- ✓ **Risk management** - We excel in risk mitigation, implementing safety protocols, securing permits, and promptly addressing potential issues to minimize costly delays and disputes.

About us
